Important information about your statement

Money market funds seek to preserve the value of your investment at $1.00 per share, but it is possible to lose money by investing in them. Margin interest is charged at rates from 6.25% to 11.75% depending on the debit balance, calculated daily and posted monthly. Past performance does not guarantee future results; investments are not deposits, are not insured and may lose value.

Money market funds seek to preserve the value of your investment at $1.00 per share, but it is possible to lose money by investing in them. Margin interest is charged at rates from 6.25% to 11.75% depending on the debit balance, calculated daily and posted monthly. Orders for 100 shares or more may be routed to market centers that provide payment for order flow; quarterly reports are available on request.

Cost basis is shown for information only; for covered securities it is reported to tax authorities on Form 1099-B within 45 days of year end. Advisory fees range from 0.25% to 1.50% of assets each year, billed quarterly in arrears, and are described in the program brochure. Margin interest is charged at rates from 6.25% to 11.75% depending on the debit balance, calculated daily and posted monthly.
