Important information about your statement

Prices shown are obtained from sources believed to be reliable but are not guaranteed; values of securities that are not actively traded may be estimated. Money market funds seek to preserve the value of your investment at $1.00 per share, but it is possible to lose money by investing in them. Estimated annual income and yield are calculated from the most recent distribution and may differ materially from actual income received.

Margin interest is charged at rates from 6.25% to 11.75% depending on the debit balance, calculated daily and posted monthly. Mutual fund shares may be subject to a 1.00% deferred sales charge if redeemed within 12 months of purchase, in addition to annual expenses of 0.05% to 1.25%. Bond ratings of Aaa through Baa3 are considered investment grade; ratings may change and are not a recommendation to buy, sell or hold.

Money market funds seek to preserve the value of your investment at $1.00 per share, but it is possible to lose money by investing in them. Prices shown are obtained from sources believed to be reliable but are not guaranteed; values of securities that are not actively traded may be estimated. Cost basis is shown for information only; for covered securities it is reported to tax authorities on Form 1099-B within 45 days of year end.

Pricing and valuation

Securities in your account are protected up to $500,000, including $250,000 for claims for cash, under the protection program described here. Mutual fund shares may be subject to a 1.00% deferred sales charge if redeemed within 12 months of purchase, in addition to annual expenses of 0.05% to 1.25%. Prices shown are obtained from sources believed to be reliable but are not guaranteed; values of securities that are not actively traded may be estimated.

Advisory fees range from 0.25% to 1.50% of assets each year, billed quarterly in arrears, and are described in the program brochure. Margin interest is charged at rates from 6.25% to 11.75% depending on the debit balance, calculated daily and posted monthly. Estimated annual income and yield are calculated from the most recent distribution and may differ materially from actual income received.
